OBJECTIVE

Software Engineering student experienced in ML and full-stack development using C++, Python, and JavaScript. Seeking a software engineering role to build impactful solutions.

EDUCATION

BCA (Computer Science) , PSIT College of Higher Education CGPA: 7.8	2023 – 2026
Intermediate , Jai Narayan Vidya Mandir Inter College 86.4%	2022 – 2023
High School , Sheiling House School 94%	2020 – 2021

SKILLS

Coursework	Data Structures & Algorithms (DSA), Database Management System, Operating Systems, Machine Learning (ML), Deep Learning (DL), Natural Language Processing (NLP)
Languages	C++, JavaScript, Python, HTML, CSS
Frameworks	MongoDB, Express.js, React.js, Node.js, PyTorch
Tools	Git, GitHub, VS Code, Docker

PROJECTS

GenAI-Powered Cognitive Radio <i>Python, Reinforcement Learning (DQN), PyTorch, Streamlit</i> - Built a DQN-based system for adaptive link selection across 5G and satellite networks. - Optimized throughput and latency via reward engineering for dynamic conditions. - Implemented GenAI-style explainability for interpretable decision-making. - Developed evaluation pipeline and Streamlit dashboard for simulation and visualization.	Jan 2026 – Present
License Plate Recognition — Computer Vision <i>Python, OpenCV, PyTorch, EasyOCR</i> - Built an OCR-based system for license plate detection from video streams. - Achieved accurate plate localization with efficient frame processing. - Designed modular pipeline for future real-time and webcam integration.	Sept 2025 – Dec 2025

EXPERIENCE

Data Science and Analytics Intern , Amdox Technologies <i>Python, Pandas, Data Analytics, Machine Learning</i> - Assisted in building machine learning models and data visualization workflows for performance analysis. - Worked on data preprocessing, reporting, and dashboard generation to support decision-making processes.	May 2026 – July 2026
--	----------------------

ACHIEVEMENTS

- Solved 275+ DSA problems on LeetCode.
- 5-star Problem Solving on HackerRank.
- Built and deployed multiple end-to-end applications across backend and full-stack workflows.

CERTIFICATIONS

- Data Science & Analytics:** Python for Data Science (Infosys Springboard), Data Science, ML, DL, NLP Bootcamp (Udemy), Data Visualisation: Business Insights (Tata Group)
- Generative AI (Anthropic 2026):** Claude 101, Claude Code 101, Intro to Claude Cowork, Intro to Subagents, Intro to Agent Skills
- Cloud & GenAI (AWS 2026):** Introduction to Generative AI – Art of the Possible, Fundamentals of Generative AI, Foundations of Prompt Engineering
